ORDER IN PENDING CASE

07-05 PROCURSIVE v. UNITED STATES

The petition for a writ of review is granted. In addition to the questions presented by the petitioner, the parties are also directed to brief the Court on the following questions:

1. Whether the cases from the *Ichigo* series finding impeachments justiciable under Anytime Review should be overruled.
2. Whether the failure of Articles 2-4 of the impeachment to allege criminal acts violates the Constitution's confinement of Congress' impeachment power to "high Crimes and Misdemeanors."
3. Whether a public official may be impeached for events occurring before they assumed that office.
